OPERA "ABAI"

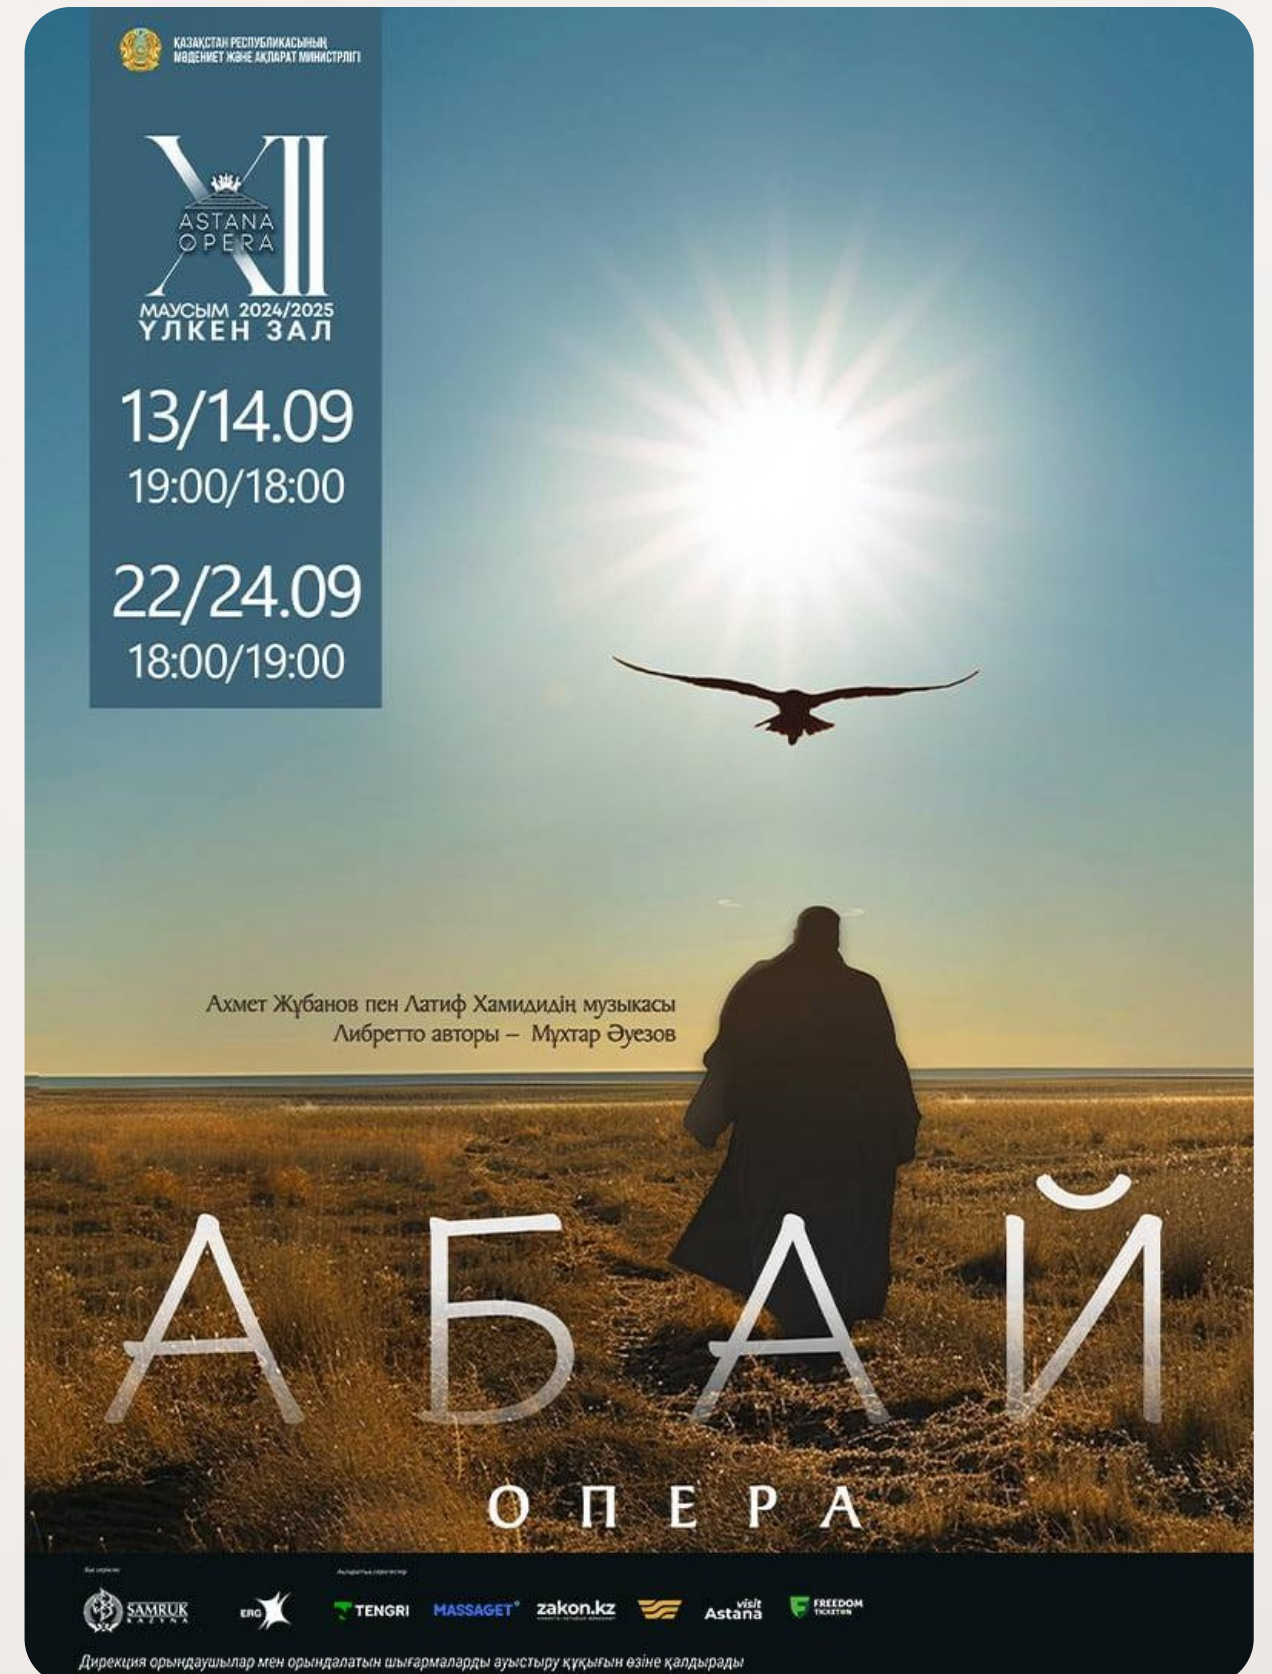

13-14 September 2024
7:00 PM

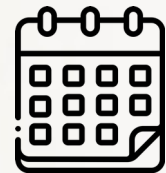

Astana Opera

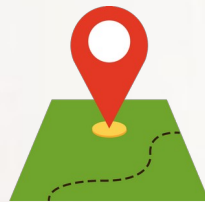

A masterpiece of national classics is the opera by A. Zhubanov and L. Hamidi "Abai" in a new interpretation by conductor Alan Buribaev and director Giancarlo del Monaco. High intelligence and level of culture, a subtle sense of musical material distinguish the reading of the score by the musical director of the production – the chief conductor of the theater of the Honored Worker of Kazakhstan Alan Buribayev. The wonderful creative duo of the outstanding set designer of our time, Ezio Frigerio, and the costume designer, Oscar winner Franca Squarciapino, delights with the originality of stage solutions. Thus, Abai's office clearly reveals the multifaceted world of the poet: a library shining with gold books, a globe, an armillary, busts of great philosophers... And the doors of the office open right into the vast world! The use of 3D technologies in the final scene works precisely, causing a storm of emotions, a powerful patriotic upsurge
